WHAT ARE THE TOP SKILLS

YOU HAVE LEARNT ON THIS COURSE BY WEEK 3

"As a newbie speaker the skills that I have learned is that you learn by doing. i.e. the more you stand and speak IN front of people the easier it gets with more speaking. also, being mentally ready and having the ability to control your thoughts makes life easier."

"how to share , stage presence eye contact"

In the first two sessions, I was still not 100% if I could overcome my fear of speaking but by the end of the 2 f2f session, I was not only convince that I can do this but also excited for the next time the opportunity to speak arises. Thanks Dineshrie, you are awesome. This course has empowered me to overcome one of my biggest fears. There is still a long road ahead, but the most important hurdle has been overcome. Thanks once again.

Tone of Voice, Body Language

1. Stage presence 2. Options to commence and end a talk was very powerful. 3. Packaging content and the teachable framework was invaluable 4. Delivering the content is critical and I have gained tremendous value from this course thus far!

That speaking is not about me but the subject I am presenting on. And that I am the presentation and excel is just a tool. I use to spend hours on the power point presentation instead of preparing my speech.

Stage presence and what not to do when answering questions from the audience

Being able to structure my presentation and tips on power point.

Onstage conduct. Content framework structure.
STAR & SAVE

I am inspired to present more, gain more knowledge on presenting techniques.
